The Texas Tree Conference & Academy Goes Virtual!

Sign up now and save with Early Bird registration

Unfortunately, the Waco Convention Center is not open so the Live Edition of the Texas Tree Conference has been cancelled - but you can still attend the online Virtual Edition of the Texas Tree Conference!

Earn you CEU's with an outstanding lineup of top speakers - and don't worry that the technology will be hard to use. If you have a desktop computer, a laptop or a tablet, you can easily join the virtual conference with the link that we will provide to you. When you are online, you will be able to interact with the speakers in real time, join your peers in chat rooms to network and engage with our sponsors and supporters.

And you won't have to sit and watch the entire Conference and Academy over the usual 2-1/2 day stretch! Instead the Virtual Texas Tree Conference and Academy will be presented with real time speakers in 2-3 hour segments spread over several weeks. And in case you can't make one of the segments, each segment will be recorded and available online later when **you** want to watch.

See you online!
