Introduction to Plant Pathology for Arborists

Four-Part Webinar Series Now Available When You Want to Watch

Thank you to everyone that joined Dr. David Appel, Professor Emeritus, Texas A&M University Department of Plant Pathology and Microbiology for the Introduction to Plant Pathology Webinar Series for Arborists. Over several sessions, you gained a greater understanding of plant pathology, integrated pest management in the landscape and can now identify common disease problems.

If you attended the webinar series, ISAT has sent you a link so you can view all of the recorded sessions as on-demand webinars for free.

If you didn't make the live webinars, you can still watch them. If you view a webinar and take the 20-question quiz you can get one (1) ISA CEU.
